FLIGHT

INDEX TO VOL. XL

JULY TO DECEMBER, 1941

A

Accident on ferry service, Second, 100, 107
—— to Atlantic ferry plane, 159
—— to Consolidated Liberator, Sabotage cause of, 48
—— statistics in America, 148
Advertised goods, Notice regarding, 294
Aero Research Ltd., New cement produced by, 316
Aerobatics, " Indicator " on, 315
Aerodrome levelling, Two pages of pictures showing, 234*c*
—— turntables at Washington airport, 222
Aerodromes, Need for defence of, 5
Aeronautical Patent Specifications, 126
A.F.C. awards, 25, 266, 267
—— (bar) awards, 25, 266
A.F.M. awards, 25, 266, 267
Africa, Douglas repair plant erected in, 420
—— New air service across, 244
Air Committee, Formation of Parliamentary, 244
—— Force, Criticism of having an independent, 356
—— Force, Letter on the need for a separate Army, 38
—— Forces, Equivalent ranks for Allied, 330
—— gunner's impression of a raid, 168*d*
—— gunners in training, Pictures showing, 274*a*
—— mail, Details regarding posting of Christmas, 294
—— mail rates for American Airlines, 148
—— mail service by Railway Air Services, 128
—— mail service to Northern Ireland, Start of new, 148
—— Minister, Message of congratulation to Fighter Command by, 4
—— Minister's message to Malta air squadrons, 120
—— parity with Germany, W. Churchill on, 351
—— survey, Article on, 257
—— Training Corps, Badge of, 28
—— Training Corps plotting course at sea (illus.), 288*a*
—— Training Corps receiving open-air instruction (illus.), 55
—— Training Corps regional command, Formation of, 162
—— Training Corps speed up training, 294
—— Training Corps squadron, Lord Mayor inspecting London, 350*a*
—— Training Corps squadrons, Letter giving suggestions for training in, 445
—— Training Corp, Suggested branch of " over forties " for, 346
—— Training Corps to train with the Home Guard, 244
—— Training Corps trailer caravan (illus.), 147
—— Training Corps, Visit by H.M. the King to, 82
—— Transport Auxiliary, Article on the, 400*c*
—— transport, Continuance during war of, 114
Aircraft, Article and sketches on asymmetrical, 76*b*
—— carriers in the Pacific, Article and photographs of, 428
—— carriers of U.S.A. (illus.), 247
—— designations, U.S. Army and Navy, 133
—— destroyed by Fighter Command, Number of enemy, 144
—— destroyed by Navy and Fleet Air Arm, Number of enemy, 144
" Aircraft Engineer " :
" Continuous Beams," W. L. Morse, 7
" Wing-Weight Estimation," C. R. Englebry, 301
" Barrel Engines," E. S. Hall, 386
" Barrel Engines " (concluded), 404
" Strain Energy " H. Parkinson, 471
Aircraft in the Pacific, Article on the, 448
—— in use by Britain, Many types of, 58
—— Letter regarding nomenclature of, 326
" Aircraft Production," Publication of smaller edition of, 296*d*
Aircraft wreckage, Warning against removal of enemy, 6
Aircraftmen, Good work done by, 292
Airfield to close down, Canada's oldest, 147
Airflow, " Indicator " on, 81
Airscrew and camera shutter speeds, Letter regarding, 470
—— blade materials, K. B. Gilmore on various, 168*c*
—— blade materials, Letters regarding article on, 225, 430, 445
—— blades, Article on the repair of wooden, 400*a*
—— blades, Rotol repair wooden, 304
—— G. G. Smith on the evolution of the variable pitch, 90*f*
—— de-icing shoes by the Goodrich Company, 160
—— Refusal of patent extension for variable-pitch, 442
—— shortage in America, 467
—— testing by Hamilton Standard, 89
Airscrews, Article on Rotol contra-rotating, 104*d*
—— Article on wooden, 365
—— by Aeroproducts Division of General Motors, New hollow, 467
—— De Havilland new four-bladed and counter-rotating, 132
Airscrews, Fairey contra-rotating, 133
—— Fairey two-bladed; B.E. wooden four-bladed; Fairey-Reed; Henry Watt hollow steel; De Havilland variable-pitch; De Havilland four-bladed; De Havilland damaged; 168*e*, *f* and 170
—— in flight, Letter on uniformity of, 401
—— Letter regarding contra-rotating, 137, 160, 202, 245, 264, 285, 306, 326, 346, 385, 445, 470
—— Letter regarding stern, 444
—— New Hamilton Standard, 181
—— Outlook on stern, 393
Airspeed Oxford waiting at night to take off, 410
Allison 24-cylinder double-vee engine, 66
—— V-1710 engine passing acceptance test (illus.), 443
Alloys, Article on the preparation of aluminium, 260
Altitude equipment, Article and photographs on, 118*d*
—— flying, Outlook on high, 393
Altitudes, Vapour lock at high, 117
Aluminium alloys, Article on the preparation of, 260
—— manufacture to be equally divided, 148
America attacked by Japan, 414
—— Punishment for delinquents in, 475
—— R.A.F. officers go to, 289, 307
—— R.A.F. pilots lecturing in (illus.), 411
—— Royal Air Force pilots being trained in, 76*d*, 446
—— to establish repair base in Eritrea, 458
American Air Force, Outlook suggesting formation of separate Army and Navy, 99
—— aircraft, Arrival in this country of various, 442*f*
—— aircraft production, Figures for, 201
—— aircraft reception station, Visit to, 22
—— aircraft to be ferried to Russia, 132
—— Airlines air mail rates, 148
—— airman's adventure in attempt to reach England, 199
—— airmen ask for autobiographies, 443
—— airmen in R.A.F. (illus.), 184*a*
—— airmen to help China, 258
—— Army and Navy, Changes in the, 456
—— barrage balloons (illus.), 40
—— blimps (illus.), 148
—— bomber manufacture, Various contracts for, 76
—— bombers and flying boats, J. I. Waddington on, 62*f*
—— bombers and flying boats with R.A.F., 49
—— bombers, Delay in delivery to Britain of, 180
—— Export Airlines refused permission to run Atlantic air service, 44
—— Export Airlines to start New York-Southampton service, 422
—— exports for last 30 years, Figures for, 118
—— exports to Britain, Publication ceased of figures for, 48*c*
—— exports to British Empire during February and March, Figures for, 6
—— factories, Number of hours put in by, 134
—— father talks to son on cinema screen, 336
—— fighters being produced for R.A.F., Short descriptions, silhouettes and sketches of, 20*f* and *g*
—— fighters to fly to Britain, 34
—— high record flight, 258
—— manufacture, Figures for, 133
—— Navy at Pearl Harbour, Vicious Japanese attack on the, 455
—— Office of Production Manager comes to Britain, 34
—— oil for Russia, 142
—— pilots for Netherlands East Indies, 358
—— planes flown direct to Middle East, 161
—— private flying, Figures for, 118
—— production figures, 6, 34
—— production, T. P. Wright on, 462
—— radiolocator, 181
—— ships to be armed, 372
—— statistics for first seven months of the year, 257
—— technical corps (illus.), 248*a*
—— technicians to receive radiolocation instruction, 93
America's opinion on way to win the war, 427
Andamite, Ltd., Anti-gas ventilation system of, 23
Anniversary of outbreak of war, Second, 146
Anti-aircraft guns can be of use, Height to which, 182
—— weapon, Canadian invents a new, 147
Ark Royal, H.M.S., Deck of (illus.), 205
—— Decorations for members of the crew of (illus.), 329
—— from escorting destroyer (illus.), 68
—— in action, 88
—— Pictures taken as she is sinking (illus.), 414, 415
—— Sinking of, 355
Armament for bombers, Article on the various methods of, 402
—— British Aircraft in German hands, Details of, 343
—— of the Bell Airacobra, 48*e*, 207
Armstrong, Maj. H. L. New appointment of, 314
—— Whitworth Whitley (flying), 462*a*
Armstrong Whitworth Whitley showing bombs painted for every trip over Germany (illus.), 41
—— Whitworth Whitley (Tiger. Flying), 462*c*
Army Air Force, Letter on the need for a separate, 38
—— Bombers training with the, 87
—— Co-operation Command, Pages of pictures showing work of, 296*f* and *g*
—— Suggested use of dive-bombers by the, 30
Artist at West Riding fighter station, 468
Asbestos suits, Article on the use of, 358*h*
Assembly of American aircraft in this country, C. G. Smith on, 442*f*
Asymmetrical aircraft actually built and flown, 109
—— aircraft, Article and sketches on, 76*h*
—— aircraft, Letter regarding, 124, 137
Atlantic air service, Permission refused to American Export Airlines to run, 44
—— crossing, Speeding up of the, 34*h*
—— ferry accident, Report on, 164
—— ferry, Article on the, 400*c*
—— ferry Command, Details of, 223
—— ferry crash, 159
Australia forms Air Cadet Corps, 199
—— wanting Army and Air Force co-operation, 127 141
Australian air line to use Lockheed 14*s*, 182
—— aluminium manufacture to be equally divided, 148
—— fighter squadron, Photo showing flying personnel of, 26
—— fighter squadron returned from raid (illus.), 210
—— plywood specification, 222
—— women and children evacuated from Darwin, 458
Autobiographies by American airmen welcomed by American Press, 443
Autogyros to tow advertisements in America, 443
Automatic pilot lands aircraft safely, 420
Auxiliary squadrons, Large number of enemy raiders destroyed by, 419
Aviation after the war, " Indicator " on civil, 296*d*
—— after the war, Letter regarding civil, 95
—— after the war, North Eastern Airways on civil, 318
Avro Anson plastic construction in Canada, 147
—— Manchester, Correction regarding span of the, 378
—— Manchester, Description, photographs, general arrangement drawing of, 339
—— Manchester flying (illus.), 352, 442*a*
—— Manchester squadron, Article on visit to an, 359
—— Manchester squadron, Photograph of H.M. King at, 390

B

Bader, Act. Wing Cdr. D.R.S. (illus.), 53
Badge of China-British fighter squadron, 453
—— of 609 squadron, 410
Badges for Dominion W.A.A.F.s, 206
Baerlin, H., Article on Free French Air Force by, 48*a*
—— H., on airmen of Free France, 358*b*
Balfour, Capt. H., on Russia, 420*c*
—— Capt. H., returns from U.S.A., 383
Baling out practice at O.T.U. (illus.), 392
Balloon barrage training unit, Visit to women's, 172
—— barrage, Woman operator at winch of, 126
—— barrage, Women employed in (illus.), 83
Barnwell, P/O D.U., Drawing depicting death of, 296*b*
Barrage balloon flying over German transport in Russia, 440
Barrel engine, Outlook on the, 371
—— engines, Letter regarding article on, 444
Bavaria, Heavy attack on, 271
Beacham, T. E. (illus.), 90*g*
Beams, Letter on article on continuous, 95
Beards worn by assemblers of Boeing B.17E, 358
Beaverbrook, Lord, Speech on visit to Russia by, 253
Beech AT-11, Brief details of, 467
Belgian Croix de Guerre award, 102
Bell Airacobra above clouds (illus.), 442*b*
—— Airacobra armament, 48*e*, 207
—— Airacobra. Dimensions of, 442*b*
—— Airacobra, Name of " Caribou " dropped for the, 89
—— Airacobra with R.A.F. markings (illus.), 74, 270, 273, 433
—— Airacobra, Speed-up in production of, 261
—— Aircobra squadron, Visit to, 281
" Belle of Berlin " (illus.), 440
B.E.M. awards, 25, 68, 83, 97, 206, 266, 308, 349, 369
Bendix Stromberg injection unit (illus.), 104*g*
Berlin, Heaviest R.A.F. attack on, 165
—— raided by Russian Air Force, 89
Bernhard, Prince, in cockpit of Miles Master (illus.), 140
Binnen Alster before and after camouflage (illus.), 60
Binocular views of British and enemy aircraft (illus.), 62*b* and *c*, 76*b* and *c*

Bird and insect flight, Letter regarding, 137
Birthday honours, 25
Black, Capt. J. P., New Ministry of Aircraft Production appointment of, 61
—— rod, Appointment of Gentleman usher of the, 247
Blackburn Botha bomb bay (illus.), 268*a*
—— Botha, Two pages of photographs showing, 214*a*, *b*, *c* and *d*
Blackpool, Complaint of dangerous low-flying at, 163
—— Visit to and article on training station at, 423
Blades, Article on the repair of wooden airscrew, 400*a*
—— J. W. Morrison on hollow airscrew, 262
Blimps still in use by America, 148
Blohm & Voss Ha 138, Photographs and brief paragraph on, 131
Boeing, B.17E, Men don't stop to shave while making the, 358
—— B.29, First mention of, 256*b*
—— Flying Fortress, Crew of (illus.), 5
—— Flying Fortress (flying), 462*c*
—— Flying Fortress, Flying equipment for (illus.), 330
—— Flying Fortress in action, Article and pictures on first report of, 106
—— Flying Fortress, Newest version of (illus.), 223
—— Flying Fortress, Photograph of pilot at controls of, 23
—— Flying Fortress (side nose view), 22, 462*a*
—— Flying Fortress's, Story of attack on Brest by, 77
—— Stratoliner chamber for training crews, 118*d*
Bomb, Operative polishing inside of, 188
—— stores, Illustration of underground, 409
Bomber Command, Review on book entitled, 236
—— Command, Start of heavy bombing of Germany by, 3
—— crews, "Indicator" on, 398
—— O.T.U., Visit to a, 20*b*
Bombers and flying boats with R.A.F., American, 49
Bombing by pattern, Article on, 34*b*
—— Correspondent's views on, 346
—— Letter regarding strategical, 160, 326
